introducing **ABOUT ME**

I am Brian Mong'are, a multifaceted professional with a robust background in forex trading, data analysis, and graphic design. With over 4 years of experience, I bring along a blend of strong analytical skills and creative potential for driving success in different projects. I love delivering insights that lead to informed decisions and creating designs that speak to audiences. Whether it's providing forex insights, complex data set analysis, or designing memorable logos, I am dedicated to excellence and innovation in all job types.

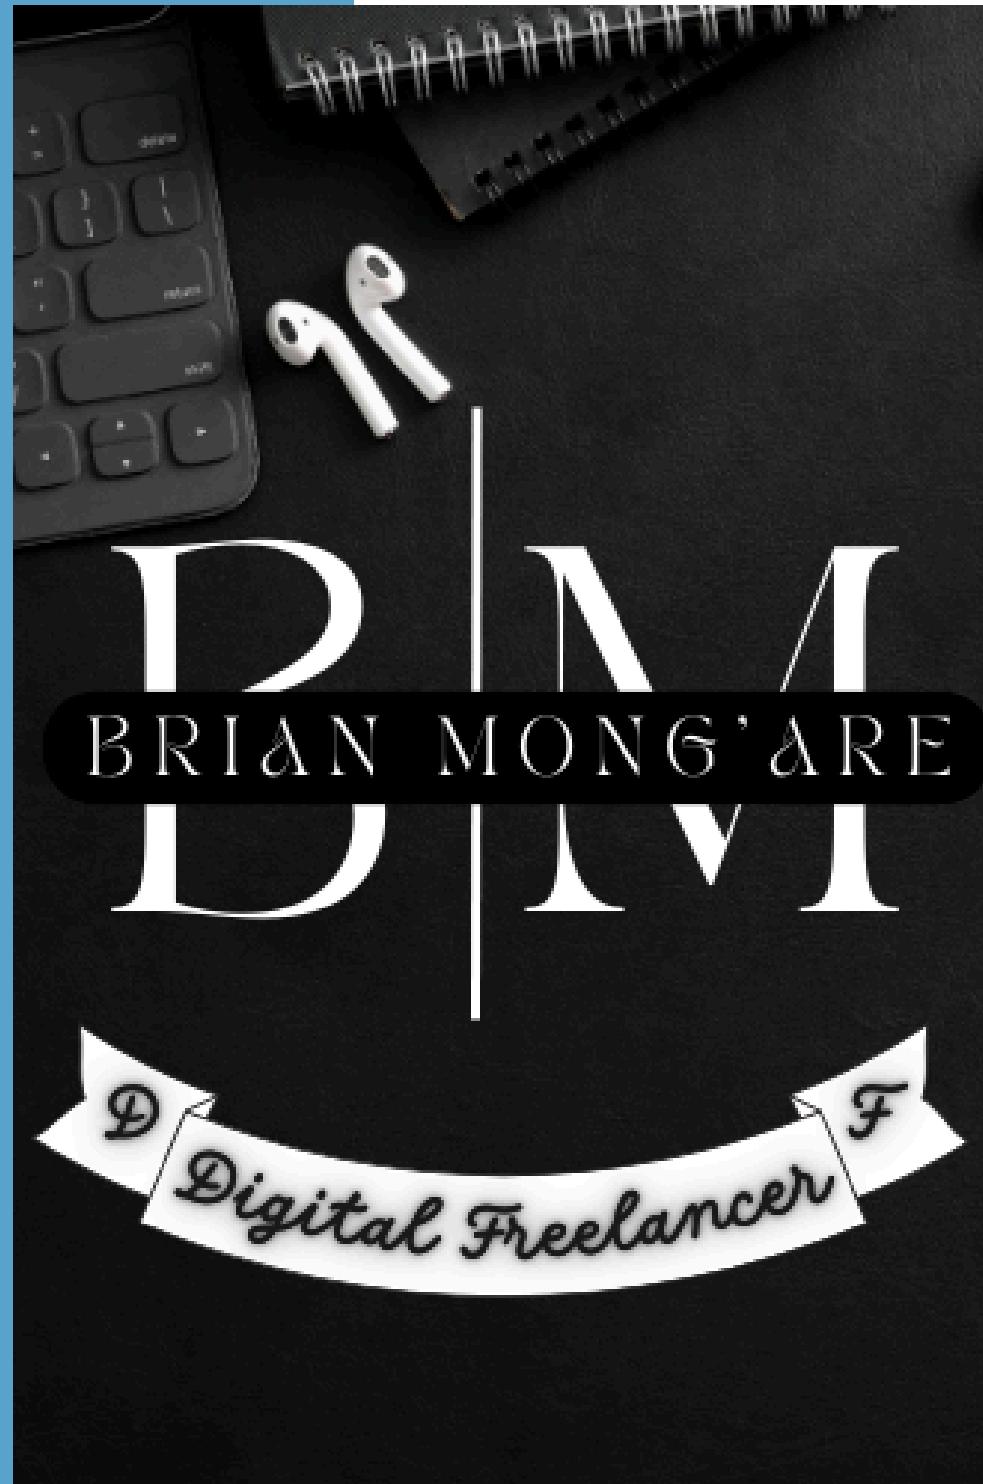

Brian Mong'are

Forex Specialist | Data Analyst | Graphic Designer

VISION

My vision is to build a reputation as a leading expert in the provision of professional services related to forex trade, data analysis, virtual assistance and logo design, thus empowering businesses and individuals to make the right decisions and building strong recognizable brands. I'll combine analytical rigor with creative design and come up with data-driven, visually striking solutions.

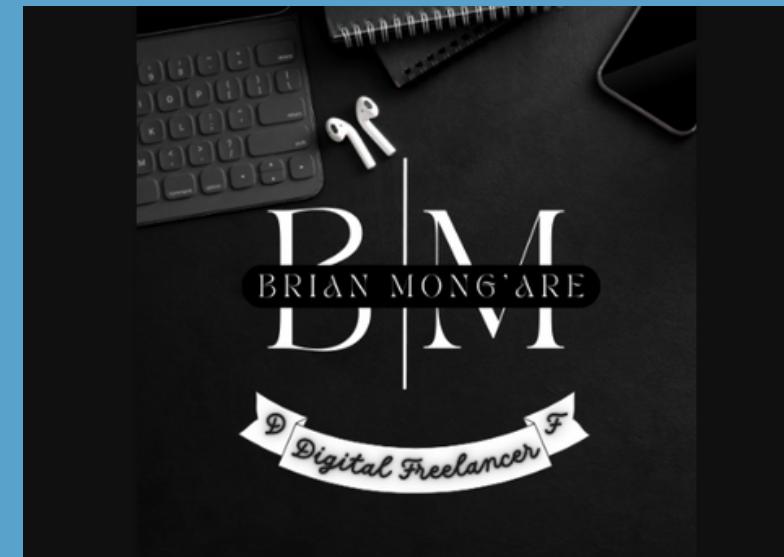

personal **SKILLS**

Brian Mong'are brings a unique mix of analytical thinking, creativity, and attention to detail. With exceptional data analysis and trend identification ability, he crafts strategic insights that will spell success. Coupled with this is class act solution delivery in trading, data analysis, and design projects through innovative designs that capture the soul of brands, aided by impeccable problem-solving skills. This, further aided by excellent communication and time management skills, enables Brian to deliver top-notch results on time, every time.

Forex Trading & Risk Management

Logo Design

Data Analysis

Information Research Specialist

EDUCATION

I hold a diploma in Information Science, which gives me a clear edge in the areas of data analysis, research, and information management. I have accrued 4 years in forex trading, dealing with risk management strategies and performing market analysis. My skill is also extended towards graphic design, particularly logo design and data analysis. I have also had experience with the Generation Kenya professional program, which has equipped me further on digital freelancing.
